My name is Brianna Riedel. I am a mother, a friend, a veteran, and an artist. I graduated from Mount Mercy University in 2024 with a Fine Arts degree. While I enjoy all art mediums, a majority of my work comes in the form of vintage inspired mixed media collages. I also do sculptural work-and I am always looking for special requests and custom orders!

“My bedroom walls as a child and teenager were covered with pictures, paintings, magazine clippings, candy wrapper collages, Christmas lights, and glow in the dark stars. I have always loved expressing myself through **art** and **decorating**. I fell in love with **mixed media collage** and found item **sculptures** because I can create however I want with whatever pieces I want. My medium is a bit messy, a little chaotic, but still appealing.” -Me, Cedar Rapids Gazette, Emerging Artist 2024, Marion Arts Festival

“My art journey has been very therapeutic for me, during extremely trying years of my life. I hope to be able to share this with others.” -Me, 2024
